

FLOOR • SILENT

MEMORY FOAM UNDERLAYMENT

FLOOR • SILENT memory foam underlayment is the high tech product manufactured by the newest material technology: **CLOSED CELL CROSSLINK** polyethylene, which is constructed with super high molecular material developed from state-of-art electron irradiation technology & memory development technology by advanced special equipment and manufacturing technique. As the result from this new technology out come the healthy, super sound barrier & super moisture barrier underlayment – **FLOOR • SILENT** – the underlayment of ultimat life time performance.

USER BENEFITS	PRODUCT FEATURES
✓ <u>SUPERIOR SOUND BARRIER</u>	◆ Memory foam technology and closed cell structure
✓ <u>SUPERIOR MOISTURE BARRIER</u>	◆ Engineered to minimize hollow sound and echoing
✓ <u>LIFE TIME PERFORMANCE</u>	◆ Hydrolysis resistant, and heat/cold resistant.
✓ <u>FOR ALL FLOORS: CONCRETE & RADIANT HEAT</u>	◆ Crush resistant and shock absorbing - helps prevent floor sagging and buckling - adds cushioned comfort
✓ <u>HEALTHY</u> - Antimicrobial technology Non-toxic, Non-Allergenic, Odor free!	◆ Conceals minor sub-floor defects
✓ <u>ENVIRONMENTALLY FRIENDLY</u>	◆ Optimal thickness for both comfort and stability
	◆ Thermal conductivity, UV resistant, and energy saving
	◆ Mold, mildew, fungus, and bacteria resistant
	◆ Corrosion resistant, and chemical resistant
	◆ Does not contain CFC's or HCFC's
	◆ Can be cleaned, washed, and re-used
	◆ 100% recyclable, and made from recycle materials
